

BRIAN DEBOOTH
HOSPITAL NETWORK COORDINATOR
561.544.2013
BDEBOOTH@SPIRITOFWOMEN.COM

Think of me as your Spirit partner.

It's always easier to work with someone you know so let me introduce myself and share how I'll work to help you succeed. My focus is to ensure that you have all you need to maximize Spirit of Women at your hospital and attain the goals you desire.

EXPERIENCE

Through my work with Spirit of Women, I have developed a particularly strong expertise at introducing new hospitals to our network and guiding them in the launch of our initiatives. Additionally, I support a number of our most successful and creative long-standing members.

My passion about the delivery of quality healthcare and health information led me to earn a Masters in Health Administration. It is exciting to be a part of a company that is characterized by the very principles on which my career is based.

WHAT I DO

My primary role is to be your access point to benefits, services and strategic solutions available from Spirit of Women. My primary responsibility is to help you translate benefits into usable tools that work within your unique environment to drive your specific goals.

COUNT ON ME TO:

- Act as the hub for all activity between you and Spirit of Women, bringing together the full force of our resources to power your Spirit program.
- Work one-on-one with you to implement your plan for strategically using Spirit of Women tactics to drive your hospital's goals.
- Address your questions, concerns and suggestions as they arise as well as manage the numerous things that are not listed here but that are important to you and your success.
- Learn more about you, your goals, your environment and your preferences to provide individualized support which will allow us to work optimally together.
- Assist you in your efforts to promote a program that strengthens your hospital's presence and reputation within your local community.
- Present viable options for return on investment tracking that captures your hospital's progress and accomplishments as you work towards achieving established goals.
